Summary

Hey Everyone, My name is Mike and I am a full-stack web developer. I am fluent with Node.js and specialize in React.js and other Javascript frameworks (this includes styling frameworks like TailwindCSS and Styled-Components). I have a deep understanding of front-end web development techniques and best practices and my knowledge extends far into the ES7 architecture. My skills include all of which are necessary to design, build and deploy a fullscale web application.

I am able to set up, maintain, extend and administrate Linux/Unix and Windows systems and I am familiar with MySQL, NoSQL, and MongoDB from the developer and the administrator perspectives.

Some other very familiar topics for me are; Node.js project configuration, domain management, custom page routing, WHM/Cpanel, and WordPress.

I currently work as a technical consultant for an internet marketing company. I also work as an Apache Server Administrator. I am currently looking for a job as a React/Javascript/Typescript Developer.

Please contact me at contact@michaelcalendo.com

if you are hiring! Thanks in advance for your time. - Mike

Experience

Technical Consultant

Endurance International Group

Dec 2020 - Present (10 months +)

Stone Veneer Subcontractor

Superior Stone LLC

May 2017 - Sep 2021 (4 years 5 months)

As a stone mason my job was to install manufactured stone and brick veneer siding on both residential and commercial properties. As a subcontractor my responsibilities were to read blueprints and estimate the total size of the job and provide a quote for the homeowner or general contractor. I also had to ensure that the project could be completed within the deadlines specified by the customer. As a foreman I monitored my crew's work. I made sure all prep work including the building paper, lathe, weep, and brown coat would all pass inspection, and that customers were satisfied with the overall quality of the finished product.

Mason

Diversified Builder Supply Inc

Dec 2014 - May 2019 (4 years 6 months)

As a foreman I installed manufactured stone and brick veneer siding on both residential and commercial properties. I organized patterns, plans, materials and supplies to efficiently prepare for each job. I trained new employees and helped them develop their skills.

Education

Mesa Community College

In Progress, Computer Programming

2019 - 2023

Licenses & Certifications

I am open to obtaining any certificates required for my employment.

Skills

React.js • Tailwind CSS • Shell Scripting • Domain Name System (DNS) • API Development • CLI • User Interface Design • User Experience Design • Cloud Infrastructure • Next.js
